

SHOULD YOUR BUSINESS GET TRAPPED INTO ONE CONTRACT?

Consider Kannavis iTrades option contracts

WHAT IS AN OPTION CONTRACTS

This option allows you to work with multiple producers that you qualify without having to be trapped in a one way contract with one producer.

HOW DOES AN OPTION CONTRACT WORK?

Its very easy! You send us a quote inquiry and we source multiple producers to send you samples. We qualify producers by doing third party QA testing. You pick your qualified producers and sign a contract with Kannavis. The producers sign contracts with Kannavis to ensure your orders are met when you want, and whenever you want. All producers you have chosen to work with will be your dedicated producers.

WHY WOULD I CHOOSE KANNAVIS OVER ONE PRODUCER?

Being experts in this industry allows us to gain a better understanding of the challenges all companies face. Being trapped with one producer will not allow you to diversify if your business model changes, and if a producer is not meeting your expectations. Overall, this will stunt the growth of your company.

NO RISK, ALL REWARD

Working with Kannavis does not put your company at any risk when working with multiple producers. Consider us as a swiss army knife or a third party verification service that gives your company flexibility and allows you to stay relevant and adapt to this industry as it constantly diversifies.
